Carbon Monoxide: The Invisible Killer

- 🐟 Symptoms of CO poisoning include headache, fatigue, trouble breathing, nausea or dizziness.
- 🐟 It can be deadly, even in small amounts.
- 🐟 If you are cooking in or heating your bob house, make sure it is properly vented.
- 🐟 Consider a CO detector!

Carbon monoxide is an invisible, odorless gas created when fuels such as gasoline, wood, coal, natural gas, propane and oil burn incompletely.

Carbon monoxide: find out how to keep you and your family safe from this invisible killer.

Call the NNEPC at 1-800-222-1222 or visit them online at www.nnepc.org.

Get the facts, don't fall victim to this deadly poison.
