DRINKING WATER TESTING

Note: If samples are to be used for drinking water compliance purposes, the laboratory must be able to submit the results to DES's Drinking Water and Groundwater Bureau (DWGB) electronically. Not all the labs on this list are able to supply compliance samples to DWGB in this format. Use the list entitled NH Accredited Drinking Water Labs that Submit Results Electronically if you intend to use the samples for drinking water compliance purposes. Contact DWGB if you have any questions concerning this requirement.

Method accreditation does not imply acceptability for compliance testing. Laboratory is required to use EPA approved methods where required by regulation.

Disclaimer: The information on this list is accurate as of the noted date. Specific accreditation information may be found through the use of one of the homepage search functions. If there are any questions concerning this information, please contact the New Hampshire Environmental Laboratory Accreditation Program at (603) 271-2998 or [george.hall@des.nh.gov](mailto:george.hall@des.nh.gov). Website information is available at <http://des.nh.gov/organization/divisions/water/dwgb/nhelap/index.htm>.
