

## **IMPORTANT NOTICE RE: Wetlands Permit Application Instructions and Required Attachments**

Due to an increase in public questions regarding historic review and protected wildlife issues, NHDES has revised the [Instructions and Required Attachments document](#) associated with the Wetlands Permit Application Form. The Army Corps of Engineers provided the following language additions:

- Section 9, “NH PGP Requirement”, has been clarified with respect to the National Historic Preservation Act and coordination with the NH Division of Historic Resources.
- A link to the U.S. Fish and Wildlife Service’s information for Planning and Conservation ([iPac website](#)) to assist the public in identifying federally protected species at a project site.
