

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 1 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	Priority	TMDL	Source Name					
NHES600030406-01	Salmon Falls River	Dover	0.282	Sq. miles	Aquatic Life	Chlorophyll-a	5-P	N	Low	Source Unknown						
						Dissolved oxygen saturation	5-P	N	Low	Source Unknown						
						Nitrogen (Total)	5-M	N	Low	Source Unknown						
						Oxygen, Dissolved	5-P	N	Low	Source Unknown						
						pH	5-M	N	Low	Source Unknown						
						Fish Consumption	Polychlorinated biphenyls	5-M	N	Low	Source Unknown					
						Primary Contact Recreation	Chlorophyll-a	5-P	N	Low	Source Unknown					
							Nitrogen (Total)	5-P	N	Low	Source Unknown					
						Shellfishing	Dioxin (including 2,3,7,8-TCDD)	5-M	N	Low	Source Unknown					
							Polychlorinated biphenyls	5-M	N	Low	Source Unknown					
						NHES600030608-01	Cochecho River	Dover	0.277	Sq. miles	Aquatic Life	2-Methylnaphthalene	5-P	N	Low	Source Unknown
												Acenaphthene	5-P	N	Low	Source Unknown
												Acenaphthylene	5-P	N	Low	Source Unknown
Anthracene	5-P	N	Low	Source Unknown												
Benzo(a)pyrene (PAHs)	5-P	N	Low	Source Unknown												
Benzo[a]anthracene	5-P	N	Low	Source Unknown												
Benzo[g,h,i]perylene	5-P	N	Low	Source Unknown												
Biphenyl	5-P	N	Low	Source Unknown												
Chlorophyll-a	5-P	N	Low	Source Unknown												
Chrysene (C1-C4)	5-P	N	Low	Source Unknown												
DDD	5-P	N	Low	Source Unknown												
DDE	5-P	N	Low	Source Unknown

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 9 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	Priority	TMDL	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 17 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	TMDL Priority	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 23 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	TMDL Priority	Source Name
NHLAK600020601-01-01	Bearcamp Pond, Sandwich	Sandwich	144.765	Acres	Aquatic Life	Dissolved oxygen saturation	5-M	N	Low	Source Unknown
						pH	5-P	N	Low	Atmospheric Deposition - Acidity

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	Priority	TMDL	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 36 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	TMDL Priority	Source Name

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	Priority	TMDL	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 49 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	Priority	TMDL	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 55 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	TMDL Priority	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 61 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	TMDL Priority	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 67 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	Priority	TMDL	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 73 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 78 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	TMDL Priority	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 83 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	Priority	TMDL	Source Name

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 89 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 94 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 95 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	TMDL Priority	Source Name

DRAFT - 2014 LIST OF THREATENED OR IMPAIRED WATERS THAT REQUIRE A TMDL

Oct. 14, 2015

(i.e., Category 5 Impairments - this represents the Section 303(d) List)

Page 100 of 102

(Excluding Fish/Shellfish Consumption Advisories due to Mercury - see Note 3)

NHDES-R-WD-15-11

Notes:

1. See the Consolidated Assessment and Listing Methodology (CALM) for definitions and details regarding how this list was developed.
2. This list is sorted by Waterbody Type and then Assessment Unit ID.
3. By this note, all marine surface waters in New Hampshire are also included on this list due to statewide fish/shellfish consumption advisories issued because of mercury levels in fish/shellfish tissue. To keep the size of this list manageable, mercury impairment for fish/shellfish consumption are not shown below.
4. TMDL stands for Total Maximum Daily Load study. TMDL schedules are subject to change as funding and resources become available.
5. Waters presented on this list may also be threatened or impaired by other pollutants or nonpollutants that do not require a TMDL.

Assessment Unit ID	Water Name	Primary Town	Water Size	Size Unit	Use Desc	Impairment Name	DES Category	Threatene	Priority	TMDL	Source Name
NHRIV802010202-31	Sandy Bch Inlet 1	Nelson	1.437	Miles	Aquatic Life	pH	5-M	N	Low	Source Unknown
