Advisory Committee to revise the New Hampshire Source Water Protection Strategy

Concord, NH — The New Hampshire Department of Environmental Services (DES) Source Water Protection (SWP) Program, in the Drinking Water and Groundwater Bureau, periodically conducts a comprehensive review of drinking water *source protection* issues and SWP Program activities, in collaboration with an advisory committee, to revise the program's strategy. The advisory committee typically consists of stakeholders, legislators, and relevant technical and program contacts from within and outside DES. The strategy is due for a revision and the SWP Program has convened a committee to begin the process.

A meeting of the SWP Advisory Committee will be held on August 15, 2007 from 1 p.m. to 4 p.m. in Rooms 110-114 at the DES office in Concord, NH.

For more information on the SWP Advisory Committee please contact Jessica Morton at (603) 271-4071 or jmorton@des.state.nh.us or visit our website at www.des.nh.gov/dwspp/strategy.htm.
