Hi Sarah,

Please see the attached documents in regards to the comment session for setting drinking water and groundwater standards for PFAS in NH.

Please be sure to use/review the referenced material in each document. As stated at the work session, either Mindi Messmer or Katie Pelch from the Endocrine Disruption Exchange could provide the documents to any papers that are needed.

Thank you for the opportunity to provide critical information on this very important health issue. As an impacted community member, I feel the most protective measures and populations should be factored in when setting the lowest standards in NH.

Best,  
Alayna

Alayna Davis

"Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has."

~Margaret Mead
