PART Env-A 1101 PURPOSE AND APPLICABILITY

Env-A 1101.01 Purpose
   The purpose of this chapter is to regulate emissions from all motor vehicles pursuant to RSA 125-C:6, XII.

Env-A 1101.02 Applicability
   This chapter shall apply to all motor vehicles as defined in Env-A 100.

PART Env-A 1102 MOTOR VEHICLE MAINTENANCE AND OPERATING REQUIREMENTS

Env-A 1102.01 Maintenance Requirements for Motor Vehicles
   (a) No person shall alter or remove any emission control equipment or system, including the basic fuel system, in any way that might limit or reduce the ability of that equipment or system to control emissions.

   (b) All emission control equipment that is originally supplied on a motor vehicle shall be maintained in place and in functional operating condition.

   (c) Emission control equipment shall be replaced only with equipment that meets or exceeds the specifications of the original equipment.

Env-A 1102.02  **Idling Limitations for Motor Vehicles.**

(a) Unless exempted by Env-A 1102.03, the owner or operator of a motor vehicle shall comply with the idling limitations specified in Table 1100-1, below, subject to the note in (b), below:

<table>
<thead>
<tr>
<th>Temperature in degrees Celsius (degrees Fahrenheit)</th>
<th>Maximum Idling Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>Above 0°C (32° F)</td>
<td>No more than 5 consecutive minutes in any 60-minute period</td>
</tr>
<tr>
<td>At or between -23°C (-10°F) and 0°C (32°F)</td>
<td>No more than 15 consecutive minutes in any 60-minute period</td>
</tr>
<tr>
<td>Below -23°C (-10° F)</td>
<td>No limit&lt;sup&gt;A&lt;/sup&gt;</td>
</tr>
</tbody>
</table>

(b) “A” means that there is no limitation on idling time so long as no nuisance is created.

Env-A 1102.03  **Exemptions From Idling Limitations.** The owner or operator of a motor vehicle shall be exempt from the idling limitations specified in Env-A 1102.02(a) under any of the following conditions:

(a) The motor vehicle is forced to remain motionless because of traffic conditions over which the operator has no control;

(b) The motor vehicle is a police, fire, ambulance, public safety, military or other emergency or law enforcement vehicle, or any vehicle being used in an emergency capacity, which is idling while in an emergency or training mode and not for the convenience of the operator;

(c) The motor vehicle’s engine is:

(1) Providing power takeoff for refrigeration, lift gate pumps, or other auxiliary uses;

(2) Supplying heat or air conditioning necessary for passenger comfort in those vehicles intended for commercial passenger transportation; or

(3) Being operated solely to defrost its windshield to prevent a safety or health emergency, and not as part of a rest period; or

(d) The motor vehicle is being operated by a mechanic for maintenance or diagnostic purposes, if idling is required for such activity.
