Firms Offering Leak Detection Services to Public Water Systems in New Hampshire

Leak detection and water loss control play a fundamental role in the efficient operation of a community water system. Water losses create unnecessary stress on water sources, system infrastructure, and the environment. The result is no beneficial end use of the resource and loss of revenue to the water system.

Below is an alphabetical list of consultants known to provide leak detection services in New Hampshire. **Inclusion on this list does not imply NHDES endorsement.** Please notify the Drinking Water and Groundwater Bureau of any necessary corrections to this list at dwgbinfo@des.nh.gov or (603) 271-2513.
