For Water Well Board Use Only

THE STATE OF NEW HAMPSHIRE
WATER WELL BOARD
29 HAZEN DRIVE
CONCORD, NEW HAMPSHIRE 03301

Dear Sir/Madam:

_____ of _____

has applied to this Board for licensure in the State of New Hampshire as a water well contractor or pump installer and either has given your name as a reference or has stated that he/she has worked for you or with you. The Board will appreciate your sending the information requested on the reference form, and assures you that the information you provide will be treated in the strictest confidence as the Board can reasonably assure. As with all public documents, the application and associated references are subject to the provisions of the freedom of information act.

Pursuant to RSA 482-B and the rules adopted by the Water Well Board, an applicant for licensure as a water well contractor or pump installer is required to have been engaged in their trade for a period of three years prior to the date of their application. The required three years experience shall be directly related to the type of license to be issued. In order to expedite the application, it is vital that you indicate on the reference form whether you are a licensed water well contractor or pump installer or a person engaged in the trade of water well construction or pump installation.

The Board is required to obtain proof of the applicant's qualifications as a water well contractor or pump installer before issuing a certificate of licensure. Statements made on this form by responsible persons with actual knowledge of the applicant's character and qualifications will be considered by the Board as evidence and filed with the application.

The Board urges that evidence submitted on this form not be perfunctory, but be considered carefully. The Board, in making decisions, must rely to a great extent on the evidence submitted by references. Since these decisions may affect the life, health, property and welfare of the public, you have the responsibility to provide the Board with a fair and honest appraisal of the applicant.

Since the Board cannot license the applicant until the references are returned, a prompt reply will expedite consideration of the applicant's request for licensure.

Respectfully yours,

Richard Schofield, P.G.
Water Well Program Manager
