The proposed revisions are to (1) move statutory definitions to an appendix, clarify existing definitions, and add definitions as needed to clarify the rules [ref. Env-Sw 2102]; (2) clarify the waiver process [ref. Env-Sw 2103]; (3) clarify how these rules interact with other applicable requirements [ref. Env-Sw 2104.03(g)]; (4) clarify the roles of owners, contractors, and individuals; (5) explicitly require the holder of a generic work plan approval to review the plan periodically to make sure the plan continues to be relevant and in compliance with applicable requirements [new ref. Env-Sw 2106.07]; and (6) clarify existing rules by updating cross-references, better explaining the signature/certification requirements for clearance reports [ref. Env-Sw 2105.15(c)-(d)], and correcting grammar and punctuation.
