

## Partial List of Regulations Applicable to Motor Vehicle Salvage Yard\*

Updated 6-17-2009

	<b>Statute Administrative Rules</b>	<b>Implementing Authority</b>	<b>General Scope of Regulation</b>
<b>Local</b>	RSA 236:111-129	Municipality [Contact the appropriate town office]	Specifies requirements for “junkyards” to obtain a certificate of location approval and an annual operating license from the town, to address local land-use, aesthetic, and nuisance concerns. Note: Additional requirements may apply under local zoning.
<b>State</b>	RSA 236:90-110	N.H. Department of Transportation (NHDOT) (603) 271-8124	Specifies requirements for “junkyards” located within 1000 feet or visible from certain federally funded highways to obtain a certificate of location approval and annual operating license from state transportation officials.
	RSA 261	N.H. Department of Safety (NHDOS) (603) 271-2330	Specifies registration provisions for new and used motor vehicle dealers, and addresses title / anti-theft provisions applicable to vehicles being salvaged.
	RSA 147-A <i>Env-Hw 100-1100</i>	N.H. Department of Environmental Services (NHDES) (603) 271-2942	Specifies requirements for managing hazardous waste (used oil, solvents, spent fuel, etc.) and universal waste (e.g., batteries, antifreeze, and mercury-containing devices).
	RSA 149-M <i>Env-Sw 100-2100</i>	NHDES (603) 271-2925	Specifies requirements for managing solid waste (e.g., tires, scrap metal, plastics, glass, asbestos, dust, paper, wire/insulation, etc.)
	RSA 146-A <i>Env-Wm 1402</i>	NHDES (603) 271-6058	Specifies requirements for installing, operating, and maintaining aboveground storage tanks.
	RSA 146-C <i>Env-Wm 1401</i>	NHDES (603) 271-3644	Specifies requirements for installing, operating, and maintaining underground storage tanks.
	RSA 146-A, RSA 146-C, RSA 147-F & RSA 147-A <i>Env-Or 600</i>	NHDES (603) 271-3644	Specifies requirements for managing contaminated sites, including requirements for reporting and cleaning up discharges of oil, including gasoline.
	RSA 485-C <i>Env-Or 700</i>	NHDES (603) 271-2999	Specifies certain groundwater protection requirements, including: Existing motor vehicle salvage yards located in a Class GAA wellhead protection area must obtain a groundwater release detection permit. Statute prohibits new yards in GAA protection areas.
	RSA 485-C <i>Env-Wq 402</i>	NHDES (603) 271-2858	Specifies limitations for discharging to groundwater, groundwater discharge permit and registration requirements, and floor drain and holding tank requirements.
	RSA 485-C <i>Env-Wq 401</i>	NHDES (603) 271-2513	Specifies requirements for handling and storing regulated substances, including many motor vehicle fluids.
	RSA 277 & RSA 281-A	N.H. Department of Labor (NHDOL) (603) 271-3176	Specifies requirements for providing and maintaining a safe working environment for employees.
<b>Federal</b>	40 CFR 122	U.S. Environmental Protection Agency (US-EPA) (617) 918-1615	Specifies requirements for obtaining a storm water management permit applicable to discharging surface runoff from a point source (e.g., storm drains, culverts, ditches, swales).
	Section 609, Clean Air Act	US-EPA 1-800-296-1996	Specifies requirements for evacuating and recycling Freon and other refrigerants.
	40 CFR 63	US-EPA (617) 918-1314	Specifies requirements for operating secondary aluminum production furnaces.
	29 CFR 1910	U.S. Occupational Safety & Health Administration (OSHA) (603) 225-1629 [Concord, NH office]	Specifies requirements for providing and maintaining a safe working environment for employees.
