

NEW ePERMITTING PAYMENT SYSTEM

In May, registered users of the Subsurface e-Permitting system will see a new option for payment by electronic check (eCheck) and a redesigned payment page. The eCheck option has no service fee. When using the credit card payment option, application fees over \$1200 will incur an additional 2.49% service fee. For the largest subdivision applications, the payment options will be limited to paper check, money order, or voucher. If you have questions after using the new payment page, please contact the Subsurface System Bureau at 603-271-3501.

Example of payment options for application fees less than \$1200.

Submittal
