

NH DES WETLANDS BUREAU PROPOSED RULES

Comments Dated: 4/19/18

AS PROPOSED:

Env-Wt 515.06 Design and Construction of Watercraft Lifts. A watercraft lift shall be designed and constructed in accordance with the following:

(a) Subject to (e), below, the lift shall be installed in an existing legal boat slip;

(b) No additional boat slip shall be created by installation of the lift;

(c) Any lift proposed to be permanent shall be installed inside a boathouse;

SUGGESTION(s):

The above should include "Watercraft" and "Boat" lifts.

A "permanent lift" should be allowed adjacent to a "permanent dock" as this is a common project. Therefore, we propose:

(c) A permanent boatlift shall only be allowed adjacent to a permanent dock or inside a boathouse.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "PWG", with a horizontal line extending to the right.
