

Dear Mary Ann,

I have read the new and improved rules, particularly the shoreline stabilization section of Chapter 600. I support the changes that incentivize living shoreline projects and make it more difficult for private landowners to simply install rip-rap and seawall armoring in New Hampshire. I do not have any specific comments or suggestions, it appears they have been carefully constructed. If you have specific questions, I can be reached by email or the phone # below.

Best, David
