The New Hampshire Department of Environmental Services Volunteer Lake Assessment Program (VLAP) is a collaborative effort that depends on the cooperation of many people. The continued help and support of these individuals and groups has contributed to the increased popularity of VLAP during its 25-year history.

The VLAP Coordinator and Limnology Center Director extend their greatest thanks to each of the devoted volunteer monitors for spending countless hours sampling, and identifying potential watershed pollution. The wealth of water quality information collected by volunteers is overwhelming and the data is instrumental to the Environmental Protection Agency and the NHDES to commit resources to the production of Total Maximum Daily Loads and watershed management planning that help protect our beautiful lakes. We also thank the volunteers for their continued support and enthusiasm for the program.

The VLAP Coordinator and Limnology Center Director also extend a well deserved thank you to the following DES staff:

- Biology Section Interns Amanda Furtado, Alicia Pickett-Hale, Carolyn Merrifield, Deidra Sargent, and Megan Cook for conducting annual biologist visits, analyzing samples in the laboratory, and managing data.
- Amy Smagula, DES Exotic Species Coordinator, for conducting annual biologist visits.
- Jen Drociak, DES Volunteer River Assessment Program Coordinator, for assisting in VLAP plankton sample analysis.
- Teresa Ptak, DES Clean Vessel Act Program Coordinator, and Megan Kerivan, Biology Section Intern, for chlorophyll-a analysis.
- Scott Ashley, DES Biology Section Quality Assurance and Control Officer, and Andrew Cornwell, DES Watershed Management Bureau Data Specialist, for data management.
- DES Laboratory Services staff who handled a constant influx of total phosphorus and *E.coli* samples from VLAP, yet continued to deliver results quickly to volunteers.

The VLAP Coordinator and Limnology Center Director also recognize the staff and interns of the Lake Sunapee Protective Association (LSPA), Colby-Sawyer College (CSC), and the Sunapee Satellite Laboratory in New London for supporting VLAP monitoring efforts in the Lake Sunapee region. The CSC-LSPA Satellite Laboratory, under the management of Bonnie Lewis, continued to distribute equipment to volunteer monitors and process samples in an extremely professional and timely manner.

We also would like to thank Janet Towse and Adam Baumann, staff at Plymouth State University's (PSU) Center for the Environment, for continuing to manage the new Satellite Laboratory. The PSU Satellite Laboratory provided equipment and processed samples for a number of lakes in Northern New Hampshire this season. We

congratulate the PSU Satellite Laboratory for a successful second season and encourage area lake monitors to use this laboratory for samples analyses.
