Subject: Please approve WQC for temporary withdrawal from Suncook River

Good morning Tom:

Please approve the attached water quality certification. It's for a temporary withdrawal from the Suncook River to provide water needed by a local industry in Epsom, NH to test a furnace. They will infiltrate the heated water on-site and have applied for a Temporary Groundwater Discharge Permit to do so. I have coordinated with Mitch Locker, the NH Fish and Game Department and the Applicant.

On the signature line I have added "Signed electronically, see attached email" and understand that you will send me an email with your approval (which I will send with the WQC when I send it to the Applicant). This is how I understand you want "sign" documents electronically. If that is not correct please let me know.

Thank you Tom.

Best,
Gregg
