

11/7/2022 EMAIL EXCHANGE BETWEEN NHDES AND NH LAKES

Andrea,

NHDES has no specific budget format that we expect other than a breakdown of the individual costs for the major project components as proposed.

The total cost of the project is not to exceed \$15,000.

Hi Dave,

NH LAKES is pulling together a proposal for the RFP for the information gathering effort relative to cyanobacteria blooms.

We have two hopefully quick questions at this time:

Is there a specific budget format that DES would be expecting for the cost estimate? And, are you able to share the budget amount DES is able to contribute to this project?

Thanks, in advance, for any information you can provide.

Andrea
